

Justin H. Dion, Associate

"Sometimes bad things happen to good people, and they get in over their heads unintentionally. My psychology background helps me counsel my clients and provides a basis for me to guide people who are acting on an emotional rather than the logical level. My goal is to provide rational and reasonable solutions, calm unreasonable fears and put my clients at ease so that I can help them overcome difficult times."

Areas of Practice:

Bankruptcy & Reorganization, Business & Corporate, Real Estate
