

Tyler W. Humphrey

Associate

“As a business lawyer, I work tirelessly to help clients accomplish both short- and long-term goals. I approach every transaction with the same mindset – to help my clients achieve their goals with a clear understanding of every angle or contingency that impact not only the deal in front of them, but their business and lives after the paperwork is signed. My prior experience in commercial litigation allows me to help my clients in an efficient and comprehensive manner, ensuring that when we put pen to paper, every possibility is understood.”
