

Yujie “Giana” Wang

ASSOCIATE

As an estate planning and elder law attorney, I help clients plan not only for the disposition of their assets, but for the people, relationships, and circumstances that shape their lives. Drawing on my prior experience in psychological counseling and social services, I approach each matter by listening carefully to understand my clients’ goals, concerns, and family dynamics. My focus is on helping clients navigate difficult and sometimes deeply personal decisions with clarity and confidence, while developing practical plans that reflect what matters most to them and their families.
